**PRESENTING XPRESSNAP® FROM SCA**

Delivering One Napkin. Every Time.

SCA Tissue recently launched XPressnap®, a revolutionary new interfolded napkin system that combines single portion dispensing with the versatility of multiple dispensing options – it can be mounted to a wall, set on a stand, dropped into a counter, placed on a countertop or mounted with a drive-thru dispensing option. Xpressnap's one-at-a-time dispensing improves personal hygiene. The angle at which the napkin is presented ensures effortless dispensing and the large napkins offer strength, absorbency and quality to end-users. Napkin cases are up to 50 percent smaller than standard napkin cases, significantly reducing storage needs. To learn more about Xpressnap, call 866-722-6659 or visit the company's Web site at www.scatissue.com.
